PURITY NETWORKS OFFERS FREE ANTISPAM SERVICES

FREE USERPROTECT LICENSE OFFER VALID FOR EVERYONE, NO PURCHASE NECESSARY

Chicago – April 29, 2010 – Purity Networks announced today the general availability of its new Free User program which gives customers a free UserProtect license for the life of their account. There is no purchase necessary, no credit card required, no strings attached.

The UserProtect service provides users with the full range of Purity Networks' email protection services, including protection from spam, viruses, phishing and other malware, priced on a per user, unlimited volume basis. Each user account is only \$10.95 per year with volume discounts available. Monthly billing options are available to accounts with 10 users or more.

"We want to give people the ability to try and use our services with no strings attached," said George A. Roberts IV, President and CEO of Purity Networks. "We're sure that our Free User offer will give them that opportunity. Besides, people love free stuff!"

For more information on the Free User offer, see <http://www.purity.net/service/freeuser.php>.

Purity Networks backs all of its services with a 30 day, 100% money-back satisfaction guarantee. A 99.9% uptime guarantee and a 24-hour support response guarantee are also provided to all customers at no additional charge.

For more information on UserProtect and to order service online, see <http://www.purity.net/service/>.

ABOUT PURITY NETWORKS

Purity Networks is an internet security services and hardware company based out of the Chicago area. Founded by the creators of the HostingCon tradeshow, Purity Networks is focused on providing products and services that give people and companies the freedom to use the internet without worrying about spam, viruses and other malware.
